Single-Administrator Governance & Architecture

SINGLE-ADMINISTRATOR GOVERNANCE ARCHITECTURE

1 Sole Platform Administrator
Hardcoded Email: 001.workme@gmail.com
Zero Secondary Administrators Rule

2 User Approvals
Approve/reject operators & set permissions

3 Portfolio Control
Assign all/single accounts to operators

4 Review Dispatch
Lock/resume operator dashboards on demand

5 Security & Audit
Executive PDF reports & tamper logs

AUTHENTICATION FLOWCHART: DUAL-METHOD VERIFICATION

1 Access PointPulse Production Console
Open https://pointpulse-8bbn.onrender.com. The secure authentication card displays dual-tab options.

↓

2 Select Sign-In Method (Direct Email or Google OAuth)
Method A: Enter 001.workme@gmail.com & admin password.
Method B: Click "Continue with Google" while logged into 001.workme@gmail.com.

↓

3 Identity Verification & Role Privilege Check
Backend validates token against hardcoded sole admin constraint. Zero secondary promotions allowed.

↓

4 Full Enterprise Administrator Console Loads
Admin navigation is unlocked: Overview KPIs, User Management, All Accounts, Old/New Board, Catalog, Reviews, Downloads, Audit.

IMMUTABLE SINGLE-ADMIN SECURITY: No user can self-promote or be promoted to administrator.

PRIMARY OPERATOR CONFIGURATION (laptopmew1@gmail.com)

- Designated Primary Operator: laptopmew1@gmail.com (Madhu G)
- Initial Status: Approved Operator with full permissions (Add Accounts, Edit, Import Excel, Update Points)
- Account Attribution: All unassigned accounts automatically resolve to laptopmew1@gmail.com
- Dossier Access: Open User Management > Details to inspect portfolio, redemptions, and activity logs.

User Onboarding, Approvals & Granular Permissions

OPERATOR APPLICATION & APPROVAL LIFECYCLE

1 Applicant Registers on Login Portal

New user submits name, Gmail, and password. Account enters "pending" status.

↓

2 Inspect Application in User Management

Navigate to "User Management". Inspect Pending Approvals queue, applicant name, and timestamp.

↓

3 Click "Approve" (or "Reject" to Purge)

Clicking Approve sets status to ACTIVE and automatically provisions initial Free Editing Window.

↓

4 Operator Gains Access to Assigned Workspace

Operator signs in immediately. Access is restricted exclusively to their assigned accounts.

GRANULAR OPERATOR PERMISSIONS MATRIX

Permission Key	Default	Function & Capability Controlled	Security Risk Level
view_accounts	Granted	View assigned accounts list and details dossier	Low (Isolated)
add_accounts	Granted	Create single accounts during active editing periods	Low (Isolated)
edit_accounts	Granted	Modify proxy servers, classification, and notes	Medium
import_excel	Granted	Bulk upload spreadsheets of accounts and points	Medium
update_points	Window	Manually update points balances (requires active window)	High
view_redemption	Granted	Browse catalog and submit reward claims	Low
download_reports	Granted	Export assigned accounts and points data to CSV	Low

EMERGENCY OPERATOR SUSPENSION & REVOCATION

1. Immediate Session Termination: In User Management, click "Suspend" on any operator row.
2. API Invalidation: The user's JWT token and active session are instantly invalidated.
3. Screen Lockout: Next API call or page refresh returns HTTP 403 Suspended and ejects user to login.
4. Reactivation: Admin can click "Reactivate" at any time to restore access seamlessly.

Portfolio Ownership & Bulk Assignment ("Assign All")

MASTER ACCOUNT PORTFOLIO STRUCTURE

1 Supabase Accounts
Master Pool: 230+ accounts
Profiles P1 through P230

→

2 account_metadata
Mapping Table: account_id -> user_id
Default owner: laptopmew1@gmail.com

→

3 Operator Workspace
Filtered by user_id
Full dossier display

The "Assigned Operator" column in All Accounts displays the owner of every profile. Use "Filter by Operator" to isolate accounts.

FLOWCHART: BULK REASSIGNMENT ("ASSIGN ALL TO USER")

1 Click "Assign All to User" Button
Located on the All Accounts toolbar (or in the Individual User Dossier header).

↓

2 Select Target Operator Profile
Choose target user: laptopmew1@gmail.com (Madhu G) in the confirmation dialog.

↓

3 Atomic Database Reassignment
System updates account_metadata for all profiles and seeds any missing remote Supabase accounts.

↓

4 100% of Accounts Assigned & Bound
Operator dossier updates to show all managed profiles, active accounts, and points ledger.

TRANSACTION LOGGED: Bulk assignment is recorded in the immutable audit log with actor ID and timestamp.

REASSIGNING INDIVIDUAL ACCOUNTS

To move a single account between operators:

1. Open "All Accounts" in the left sidebar.
2. Search or filter to find the account row and click the "Edit" button.
3. Locate the "Assign Operator" dropdown and select the new operator email (e.g. laptopmew1@gmail.com).
4. Click "Save Changes". The profile and its points ledger move immediately to the selected user.

Periodic Review Dispatch & Free Editing Governance

ADMIN-CONTROLLED REVIEW FORM DISPATCHING & GATING

1 Admin Decides When to Send Review Form

Navigate to "Monthly Reviews" (or User Management). The form does not send automatically.

↓

2 Click "Send Form" (Single User) or "Send Form to All"

Clicking Send Form flags review_form_required = 1 and emits a real-time notification socket event.

↓

3 Operator Dashboard Stops Displaying (Locked)

The operator's screen immediately presents the review overlay, holding dashboard access.

↓

4 Operator Submits -> Dashboard Resumes Instantly!

Once submitted, operator access unlocks immediately. Submission appears in Review History for admin review.

ADMIN CANCEL OVERRIDE: Click "Cancel & Resume Dashboard" at any time to lift gating without submission.

FREE EDITING PERIOD & DURATION GOVERNANCE

Configure editing window rules by clicking "Free Editing Periods" on the All Accounts toolbar:

- Global Default Duration: Set the standard window (e.g. 24 Hours, 48 Hours, or 7 Days) automatically granted to newly approved operators upon registration.
- Auto-Start on Approval: Toggle whether new operators automatically start their timer upon approval.
- Custom Extension: Select any operator (e.g. laptopmew1@gmail.com) and grant a customized window (e.g. 12 Hours) to allow spreadsheet uploads or server updates.
- Emergency Revocation: In "Points & Access", click "Revoke Window" to immediately terminate an open session.

OLD / NEW ACCOUNT CLASSIFICATION KANBAN BOARD

Navigate to "Old / New Board" to manage account tenure visually:

- Drag-and-Drop: Drag account cards between the OLD ACCOUNTS and NEW ACCOUNTS columns to instantly update tenure in the database.
- Batch Reclassification: Select multiple accounts using checkboxes and click "Batch Move to OLD" or "Batch Move to NEW".
- Real-Time Sync: All classification changes immediately reflect across user dashboards and executive PDF reports.

Rewards, Audit Logs & Google Cloud OAuth Setup

MASTER REWARD CATALOGUE & REDEMPTION PIPELINE

1 Publish Rewards
Add vouchers, gift cards, points required & stock

→

2 Account Match
System evaluates operator accounts meeting criteria

→

3 Operator Claim
Operator submits redemption in Available Rewards

→

4 Fulfillment
Admin approves & disburses in Matching

Points are automatically deducted upon administrative approval and fulfillment.

GOOGLE CLOUD CONSOLE: EXACT OAUTH 2.0 CONFIGURATION

To ensure Google OAuth authentication functions with zero errors on production:

1. Open Credentials:	Navigate to Google Cloud Console ’ APIs & Services ’ Credentials.
2. Select Client ID:	Click Web Client ID: 162534616388-ko0lpc0r6cpor5vb8tv23aodamelv9mv.apps.googleusercontent.com
3. Authorized Origins:	Under Authorized JavaScript origins, enter: https://pointpulse-8bbn.onrender.com (no trailing slash)
4. Authorized Redirects:	Under Authorized redirect URIs, add: https://pointpulse-8bbn.onrender.com AND https://pointpulse-8bbn.onrender.com/api/auth/google/callback
5. Render Environment:	Verify GOOGLE_CLIENT_ID is saved in Render Dashboard Environment Variables.

AUDIT LOGS & EXECUTIVE PDF REPORT GENERATOR

1. Immutable Append-Only Security Audit Logs (Audit Logs View):

- Every login, approval, account creation, edit, bulk migration, points change, and review form dispatch is recorded.
- Each log entry contains exact ISO timestamp, actor ID/email, role, target user, action, and IP address.
- Logs are append-only and cannot be modified or deleted by any user or administrator.

2. Executive PDF Report Generation (Download Center View):

- Generate publication-ready executive PDF reports with KPI summaries, points distribution charts, and account rosters.
- Passwords and credentials are automatically redacted in compliance with zero-trust security standards.
- Export full raw account databases to CSV for external archiving or spreadsheet processing.

ADMINISTRATOR EMERGENCY CONTACT & RECOVERY

Sole Administrator: 001.workme@gmail.com • Server: Express 5 + SQLite + Supabase
Hosting: Render Web Service (pointpulse-8bbn.onrender.com) • Backup: Supabase Remote PostgreSQL
