Architecture & Getting Started Workflow

SYSTEM ARCHITECTURE: ROLE & DATA ISOLATION

1 PointPulse Cloud
Secure Production Node
pointpulse-8bbn.onrender.com

→

2 Operator Identity
User: laptopmew1@gmail.com
Bcrypt Authenticated & Approved

→

3 Assigned Portfolio
Strict Data Isolation
Only assigned accounts visible

Security Rule: Zero plain-text passwords stored or displayed. Strict database isolation ensures operators cannot view or alter other users' accounts.

ONBOARDING LIFECYCLE: FROM SIGNUP TO DASHBOARD ACCESS

1 Access Access Portal & Select Registration Tab

Navigate to https://pointpulse-8bbn.onrender.com and click the "Create Account" tab at the top of the authentication card.

↓

2 Submit Registration Form with Gmail & Password

Enter Full Name, active Gmail (e.g. laptopmew1@gmail.com), and secure password. Credentials are encrypted using bcrypt (10 rounds).

↓

3 Application Queued: Pending Review Screen

PointPulse displays "Application Submitted: Pending review by Administrator (001.workme@gmail.com)". Access is temporarily held.

↓

4 Sole Administrator Approves Operator Account

Administrator logs in, verifies the application under User Management, and clicks "Approve". Initial Free Editing Window is assigned.

↓

5 Login & Immediate Dashboard Admission

Enter Gmail and password under "Sign In" tab (or click "Continue with Google"). Full operator dashboard loads with assigned accounts.

VERIFIED GOOGLE AUTHENTICATION ACTIVE • BCrypt Password Protection • Zero Plain-Text Storage

OPERATOR DASHBOARD: 4 PRIMARY KPI METRICS

ACTIVE ACCOUNTS	TOTAL POINTS	PENDING REQUESTS	ELIGIBLE REWARDS
LIVE	LIVE	LIVE	LIVE
Live Operational Profiles	Aggregated Balance	Open Tickets / Windows	Unlocked Vouchers

All metrics recalculate dynamically in real time when account status, points tallies, or redemptions update.

Account Ingestion: 9-Column Excel/Sheets Setup

BULK SPREADSHEET INGESTION PIPELINE (EXCEL / CSV)

1 Format Sheet
Prepare Excel / CSV file with 9 standard headers

→

2 Sample CSV
Click "Upload Excel" > Download Sample Template

→

3 Import Data
Select file & upload during Free Editing Period

→

4 Auto-Binding
Accounts bound to your profile

Note: Operators can import all accounts at the start during their active Free Editing Window or with import permission.

MASTER SPREADSHEET SCHEMA: COMPREHENSIVE CREDENTIALS & FIELDS

Column Header	Req?	Example Value	Maps to UI Field in Account Details
profile_no	Yes	001 (or 089, 230)	Section A: Profile Number (3-digit formatted 001)
email	Yes	operator.acc1@gmail.com	Section A & B: Primary Email / Outlook Identifier
email_password	No	AlphaPass!9	Section B: Email / Outlook Password (Plaintext)
server	Yes	US-AZ#146	Section A & B: Server Information (Proxy Tag)
proton_email	No	secure.acc@proton.me	Section B: Proton Mail Address
proton_password	No	ProtSecret#4	Section B: Proton Mail Password (Plaintext)
alternative_email	No	recovery@domain.com	Section B: Alternative / Recovery Mail
alternative_password	No	RecPass*2	Section B: Alternative Mail Password (Plaintext)
current_points	No	5000	Account Table: Current Points Ledger
classification	No	old (or new)	Section A: Classification Badge (Old / New)
status	No	active (or banned)	Section A: Status Badge (Active / Banned)
notes	No	US proxy rotation slot #1	Section A: Account Notes Box

UI FIELD CORRESPONDENCE: DEDICATED ACCOUNT DOSSIER

Section A: Account Overview

- **Profile Number:** 3-digit zero-padded (001, 002, 089)
- **Email / Outlook:** Primary account identifier
- **Server:** Bound proxy host / tag
- **Status & Class:** ACTIVE/BANNED and OLD/NEW badges
- **Account Notes:** Freeform operational notes

Section B: Credentials & Passwords (Plaintext)

- **Email & Password:** Plaintext password with copy & eye toggle
- **Proton & Password:** Proton mail & plaintext password
- **Alt Mail & Pass:** Optional recovery mail & password
- **Server / Proxy:** Server tag with 1-click copy

Result: Uploading all credentials via spreadsheet populates both Section A and Section B completely with no empty "-" fields.

Governance: Free Editing Period & Protection States

STATE MACHINE: FREE EDITING PERIOD VS READ-ONLY LOCK

STATE 1: FREE EDITING ACTIVE

`[#ñþ Free Editing: 18h 45m remaining]`

- Full Write Permissions Enabled
- "+ Add Account" toolbar button active
- "Edit" button enabled on all rows
- "Upload Excel" enabled for bulk import

Timer = 0:0 →

STATE 2: READ-ONLY PROTECTED

`[Ø=Ý Locked: Read-Only Mode]`

- Write buttons securely locked
- Protects accounts from accidental overwrite
- Data fully readable & exportable
- Unlock via Request Center ticket

Admin Approves Request Center Ticket -> Timer Restarts (State 1 Resumes)

FLOWCHART: REQUESTING AN EDITING WINDOW OR CORRECTION

1 Navigate to Request Center

Click "Request Center" in the sidebar navigation and click the blue "+ New Request" button.

↓

2 Select Ticket Category & Specify Reason

Choose "Account Correction" (to fix proxy/server) or "Points Update Window" (to tally points).

↓

3 Administrator Receives Real-Time Alert

Notification arrives on the Administrator Notification Center. Admin can inspect details and rationale.

↓

4 One-Click Admin Approval & Immediate Unlock

When approved, changes are automatically committed or your Free Editing countdown badge unlocks instantly.

REAL-WORLD REQUEST TICKETS EXAMPLES

Example A: Account Correction Ticket

Type: Account Correction
Account: rathantata51@gmail.com
Subject: Rotate Proxy Exit Node
Details: Please update server proxy from US-AZ#146 to US-CA#102 due t
Status: Pending Admin One-Click Commit

Example B: Points Window Request

Type: Points Update Window
Duration: 2 Hours
Subject: Monthly Batch Points Sync
Details: Updating month-end points for assigned farm profiles P1 to P20.
Status: Timer starts immediately upon approval

Points, Rewards & Periodic Review Governance

POINTS & REWARD REDEMPTION LIFECYCLE

1 Earn Points
Managed accounts accumulate points from activity

→

2 Browse Catalog
Check Available Rewards & point thresholds (e.g. 10k)

→

3 Claim Voucher
Click "Redeem Reward" on qualifying profiles

→

4 Fulfillment
Admin fulfills gift card or payment

Track your submitted redemptions and disbursement codes directly under "Request Center > My Requests".

PERIODIC REVIEW FORM: ADMIN-DISPATCHED GATING FLOW

CRITICAL NOTICE: The review form NEVER pops up automatically. It ONLY appears when Admin specifically sends it.

1 Normal Operation: Dashboard Fully Active
Operator works seamlessly without interruptions. The review form is dormant and hidden.

↓

2 Administrator Dispatches Review Form to Operator
Administrator clicks "Send Form" in Monthly Reviews. Socket event notifies your session instantly.

↓

3 Dashboard Stops Displaying (Review Gate Active)
Full-screen review overlay appears. Dashboard access is temporarily held until review completion.

↓

4 Operator Completes 4 Verification Questions
1. Registered account review? 2. Records accurate? 3. Status changes? 4. Points up to date?

↓

5 Click "Submit & Unlock": Dashboard Resumes Instantly!
Review flag resets to 0. The review gate closes and your normal dashboard resumes displaying immediately.

Admin Override: The Administrator can also click "Cancel & Resume Dashboard" to lift the requirement at any time.

SELF-SERVICE REPORT EXPORTS (CSV)

Navigate to "Download Reports" to export your assigned accounts, points balances, and redemption history as a timestamped CSV spreadsheet for offline analysis.

Passwords and sensitive authentication tokens are strictly stripped to maintain zero-trust security compliance.

Quick Reference & Troubleshooting Decision Tree

TROUBLESHOOTING DECISION TREE

Issue 1: "Sign In" button reloads page or does nothing

Cause: Browser cache running older JavaScript version.

Solution: Perform a hard reload: Press Ctrl + F5 (Windows) or Cmd + Shift + R (Mac). Authentication is direct and asynchronous.

Issue 2: "Application Submitted: Pending Review" appears

Cause: Enterprise access control requires administrator authorization.

Solution: Notify administrator (001.workme@gmail.com) to approve your application under User Management.

Issue 3: "+ Add Account" and "Edit" buttons are locked

Cause: Your Free Editing Period has expired and portfolio is in Read-Only Mode.

Solution: Go to Request Center > click "+ New Request" > submit an "Account Correction" or "Points Window" request.

Issue 4: Account Details fields show "-" (empty)

Cause: Spreadsheet uploaded was missing optional columns (recovery, proton, notes).

Solution: Download the 9-column sample template from "Upload Excel" and re-import with all fields populated.

Issue 5: Review Form appears and blocks dashboard

Cause: Administrator dispatched a periodic compliance review to your profile.

Solution: Answer the 4 simple verification questions and click "Submit & Unlock Dashboard" to immediately resume.

OPERATOR DAILY & MONTHLY CHECKLIST

Frequency	Routine Action	Target Interface	Expected Outcome
Daily	Verify Active Accounts Health	Active Accounts Table	Flag any proxy or server dropouts
Weekly	Review Points Ledger Tally	Points Ledger Tab	Ensure accumulated points match activity
As Needed	Submit Correction Requests	Request Center	Rotate server proxy or update recovery email
When Eligible	Redeem Unlocked Vouchers	Available Rewards	Submit claim for admin fulfillment
Admin Prompt	Complete Periodic Review Form	Review Gate Overlay	Confirm records accurate to resume dashboard

SECURITY & SUPPORT CONTACT

- Sole Administrator: 001.workme@gmail.com
- Production URL: https://pointpulse-8bbn.onrender.com
- Support & Requests: In-App Request Center ("Contact Administrator" modal)
- Security Compliance: Zero-Password Storage Policy • BCrypt Salt Rounds: 10 • Role-Based Data Isolation
